Emergency Medical Dispatch Instructor Form

This Trainee Guide is intended to be used as a learning tool for the National Highway Traffic Safety Administration Emergency Medical Dispatch National Standard Curriculum. The purpose of this training course is to provide instructor trainees with the knowledge and skills necessary to instruct the basic EMD program for Emergency Resources.

The Instructor Trainee Guide has been developed with the needs of the beginning Emergency Medical Dispatch Instructor (EMD-I) in mind. It allows you to follow the Emergency Resources, EMD student manual presentation format during the EMD training course. This Trainee Guide is not intended to serve as a user manual, but to be used as a guide to the EMD training course participants.

This Trainee Guide and Student Manual establish the NHTSA standard curriculum for EMD. It represents the required content of any EMD curriculum.

This course primarily focuses on end user productivity in teaching the Emergency Resources basic EMD program.
